The Cantina Nova boiler offers clever, compact design, yet with a large storage hopper and automatic heat exchanger cleaning. They control the flow and return temperatures, removing the requirement and cost of an anti-condensation valve. They don't require a buffer tank for efficient operation. Self-regulating settings of combustion provide the perfect mix of fuel & oxygen at all times, ensuring high efficiency and reliability.

KEY FEATURES

- Self-regulating: auto adjusts to chimney & fuel
- Anti-condensation system - no valve required
- Wi-fi/smartphone control & remote diagnostics
- Automatic heat exchanger cleaning
- Multiple safety sensors and alarms
- Stainless steel heat exchanger
- Clever, space-saving design with large hopper
- Control of DHW tank, buffer and hoppers
- Includes pump, expansion tank & safety valve
- Full technical aftersales & maintenance
- 5-year warranty *
- Maintenance contract available

* Subject to a maintenance contract, otherwise standard 2 year warranty applies
