* Heatable volume will vary, based on fuel used and building's insulation and airtightness levels.

woodpelletstoves.ie

The Cube 8 is a compact stove with a slim profile, only 277mm (10.9 inches) deep. Due to being an airtight stove, a separate, permanently-open room vent is not required. This is a well-built stove with a high-quality finish and in a square profile for a sleek, modern look. It's Wi-Fi enabled, meaning that it can easily be connected to your mobile phone for remote access.

KEY FEATURES

- Airtight stove: no separate room vent required
- Advanced, user-friendly, 6 button LCD display
- Slim profile, only 277mm deep
- Quick-start function - faster than other brands
- Impressive hopper for reduced loading intervals
- Multiple safety sensors and alarms
- Control by room temperature or power level
- Remote access via Smartphone App (optional)
- Rear, top or right-side flue outlet
- Full technical aftersales & maintenance
- 5-year warranty *
- Maintenance contract available

* Subject to a maintenance contract, otherwise standard 2 year warranty applies
