woodpelletstoves.ie

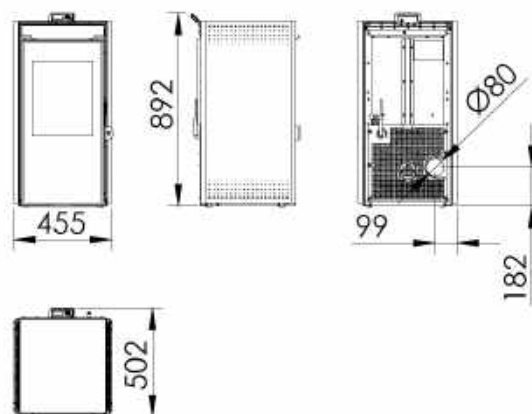

The Moon II is a modern, well-equipped air stove which doesn't require a separate room vent, due to being airtight. It also monitors and adjusts the pellet feed and air supply automatically, depending on the location conditions at any given time. Wi-fi and internet control give you complete control and allows remote log-in by a technician. This stove is compact, well-finished and superb value for money.

### KEY FEATURES

- Airtight stove: no separate room vent required
- Self-regulating: auto-adjusts to chimney & fuel
- Wi-fi/smartphone control & remote diagnostics
- Control by room temperature or power level
- Multiple safety sensors and alarms
- Top, rear or right side flue exit
- Vacuum air wash glass cleaning system
- Front black tempered glass
- Stainless steel burn pot
- Full technical aftersales & maintenance
- 5-year warranty \*
- Maintenance contract available

\* Subject to a maintenance contract, otherwise standard 2 year warranty applies
