woodpelletstoves.ie

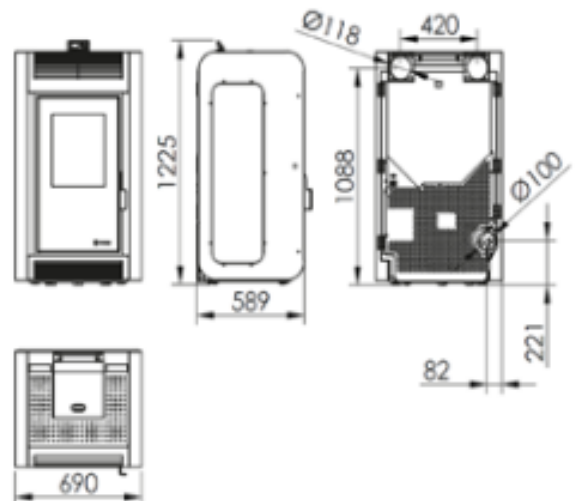

The Kiev is a stunning, modern and well-equipped ductable air stove. It monitors and self-adjusts the pellet feed and air supply, depending on the location conditions at any given time. Wi-fi and internet control allow remote log-in by a technician. The aluminium, finned heat exchanger ensures optimum efficiency without the need for daily cleaning and the stove has an advanced glass airwash system.

KEY FEATURES

- Stainless steel tube heat exchanger
- Self-regulating: auto-adjusts to chimney & fuel
- Wi-fi/smartphone control & remote diagnostics
- Control by room temperature or power level
- Multiple safety sensors and alarms
- Rear flue outlet
- Vacuum cleaning system
- Two ducted air outlets, max. length 7 metres
- Wheels underneath for easy maintenance
- Full technical aftersales & maintenance
- 5-year warranty *
- Maintenance contract available

* Subject to a maintenance contract, otherwise standard 2 year warranty applies
