* Heatable volume will vary,
based on fuel used and
building's insulation and
airtightness levels.

The Triple 70D is the smallest ducted Horus Calore insert stove. Due to its compact size at only 722mm wide and 499mm high, this insert stove is perfect for replacing an old, inefficient or no longer used chimney. Ventilation to the room is provided via the top grille and the rear duct connection for easy heat transfer to an adjacent room. Various loading options available - wall chute, integrated drawer or slide out stove.

KEY FEATURES

- Silent operation with no loading noises
- Advanced, user-friendly, touch screen display
- Rear duct connection with separate control
- Optional loading through drawer or chute
- Compact size: 722mm wide and 499mm high
- Multiple safety sensors and alarms
- Control by room temperature or power level
- Remote access via Smartphone App (optional)
- Rail system for easy maintenance
- Full technical aftersales & maintenance
- 5-year warranty *
- Maintenance contract available

* Subject to a maintenance contract, otherwise standard 2 year warranty applies
