* Heatable volume will vary,
based on fuel used and
building's insulation and
airtightness levels.

The Triple 80 is the middle size of the Horus Calore insert stove range. Due to its compact height of only 499mm, this insert stove is perfect for replacing an old, inefficient or no longer used chimney. Ventilation to the room is provided via the top grille and the pellets are loaded continuously for extremely silent operation. Various loading options available - wall chute, integrated drawer or slide out stove.

KEY FEATURES

- Silent operation with no loading noises
- Advanced, user-friendly, touch screen display
- Ambient fan for heat circulation
- Optional loading through drawer or chute
- Compact size: 812mm wide and 499mm high
- Multiple safety sensors and alarms
- Control by room temperature or power level
- Remote access via Smartphone App (optional)
- Rail system for easy maintenance
- Full technical aftersales & maintenance
- 5-year warranty *
- Maintenance contract available

* Subject to a maintenance contract, otherwise standard 2 year warranty applies
