\* Heatable volume will vary,  
based on fuel used and  
building's insulation and  
airtightness levels.

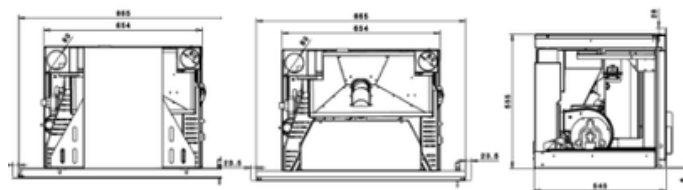

The Triple 90D is the largest of the Horus Calore ducted insert stoves. Due to its compact height of only 499mm, this insert stove is perfect for replacing an old, inefficient chimney but also offers that widescreen look. Ventilation to the room is provided via the top grille and the rear duct connection for easy heat transfer to an adjacent room. Various loading options available - wall chute, integrated drawer or slide out stove.

### KEY FEATURES

- Silent operation with no loading noises
- Advanced, user-friendly, touch screen display
- Rear duct connection with separate control
- Optional loading through drawer or chute
- Widescreen: 912mm wide and 499mm high
- Multiple safety sensors and alarms
- Control by room temperature or power level
- Remote access via Smartphone App (optional)
- Rail system for easy maintenance
- Full technical aftersales & maintenance
- 5-year warranty \*
- Maintenance contract available

\* Subject to a maintenance contract, otherwise standard 2 year warranty applies
